TopSwiss MBS

When it comes to the high accuracy and precision necessary to create small and micro components, TopSwiss MBS delivers a versatile offering you can count on for next level internal turning.

MBS Product Offering Features:

- Nearly 200 toolholders across 3 levels of precision: standard, premium and high performance
- Exceptionally sharp cutting edges for best-in-class tool life and surface finishes
- 4 high-performance, material specific coatings for aggressive cutting parameters and long tool life in high-temp alloys, stainless steels, steel, hardened and composite materials
- 1 universal coating designed for performance and consistency across multiple materials

Product & Application Data

Product

Cutting Diameter (Internal Boring)

Ø 0.3mm - 8.0mm | Ø 0.012" - 0.315"

Grade

KCU25S, KCSM25S, KCPM25S, KCHS25S

Applications

Boring

Profiling

Back Boring

Grooving

Chamfering

Threading

Face Grooving
