WE PROUDLY CARRY QUALICHEM!

XTREME CUT 240 - A semi-synthetic, chlorine-free cutting and grinding fluid capable of performing on a wide range of materials, including steel, stainless steel, aluminum, nickel alloys, yellow metals, and plastics.

XTREME CUT 250C - A premium quality, heavy duty metalworking coolant designed to provide optimum tool life and surface finishes on a wide variety of materials including most ferrous and non-ferrous materials.

XTREME CUT 290 - A premium quality, semi-synthetic, heavy duty metalworking coolant designed for the most difficult machining applications and extended fluid life on nickel alloys, titanium, and stainless steels.

Q-COOL 355D - A neutral pH heavy duty synthetic coolant, that is oil-rejecting, water clear, increases runtime, improves surface finishes, reduces usage rates, and has a zero scrap rate.
